**RESPONSES OF THE UNITED STATES POSTAL SERVICE
TO CHAIRMAN'S INFORMATION REQUEST NO. 9**

RESPONSE:

The NSA contracts specified in the question fall into one of three categories:

- 1) There were no mailings under the NSA in FY14.
- 2) The NSA Partner paid published prices, as explained below.
- 3) The revenue, volume, weight, and attributable costs data were included in another contract with the same customer (see table below for contract #).

For each contract, the table below identifies either the other contract in which the data were reported, or the category which indicates why there are no data to provide.

With respect to the second category, all 31 FCPS NSAs paid published, not discounted, prices. These NSAs initially were used to enable partners to use PCPostage as a payment method during a time when postage statements were the required method. However, as of January 27, 2013, PCPostage is now allowed as a payment mechanism and contracts are no longer required (see Postal Bulletin, *DMM Revision: Domestic Competitive Products Pricing and Mailing Standard Changes*, Dec. 13, 2012). The last FCPS NSA (FCPS 34) was filed on December 17, 2012. For the above reasons, data for FCPS contracts were not tracked in FY14, so contract-specific workbooks are not available. Since the mail was entered at published rates, data for mail entered by mailers who previously were FCPS NSA partners are included with all other FCPS data.
